EC2, S3, Sqs, Lambda, DynamoDb

Experience

Software Engineer @ Sturents Ltd.

2020 - Present

- ▷ Landlord marketing and operations platform. Worked on systems including tenancy signing; accounting, payment and FX services for rent collection; property listings and search
- ▷ Adding microservices to a monolithic web app to handle emails, report building and 3rd party api communication - improving site performance and increasing scalability
- ▷ Improving error visibility with use of services such as Datadog, Sentry and Clockwork

Software Engineer @ Magma Digital Ltd.

2019 - 2020

- ▷ Development of a health and risk assessment application for a large, multi-national company.
- ▷ Built a feature for synchronising data between multiple legacy freight applications
- ▷ Mentored students as part of 12 week PHP coding bootcamp

Web Developer @ Barcadia Media

2015 - 2019

- ▷ Designed and developed brochure and CMS applications in collaboration with design team
- ▷ Updated legacy code to use modern frameworks such as Vue/Vuex and Laravel
- ▷ Led our team in adopting more Agile work practices like source control, sprint planning and daily stand-ups
- ▷ Mentored new hire and educated peers in the use of common design patterns and practices

Freelance Web Developer

2014 - 2015

- ▷ Created WordPress plugins for a company CMS
- ▷ Front-end development on WordPress websites

Education

Lancaster University (2011 - 2014)

BSc (Hons) in Computer Science - First Class Honours

Blackpool and Fylde College (2009 - 2011)

IT Practitioner BTEC Diploma (Distinction)
